There is always someone here to hear you at the New Mexico Crisis and Access Line (NMCAL) & Peer-to-Peer Warmline

Integrated Program

Everyone deals with pain and emotions differently. As such, NMCAL offers an integrated program where crisis line counselors, care associates, and crisis responders work in conjunction with Warmline peer support specialists to ensure that callers receive the most appropriate level of care. There are times when calls will be transferred to, or from, the crisis line.

CRISIS LINE UTILIZATION DATA

New Mexico Crisis and Access Line

The following tables and charts provide information about clinical calls handled by mental health professionals on the New Mexico Crisis and Access Line and National Suicide Prevention Lifeline during the month of July 2019.

Crisis Line Utilization	July '19	June '19	July '18
Total clinical calls	2,277	2,047	2,257
Service Level (answered under 30 sec)	80.8%	79.8%	78.9%
Abandonment Rate	4.0%	4.2%	7.4%
Average Speed of Answer	28 sec	25 sec	23 sec
Average Call Length	20.3 min	20.8 min	17.4 min

We understand that every struggle is different. NMCAL offers immediate counseling to anyone that may need it, and provides invaluable support at critical times by connecting individuals to local services, when needed. We know that being here to hear people, and offering a simple act of kindness, can help a person feel less alone, supported, and able to keep going.

Level of Care Crisis Line Calls	July '19	June '19	July '18
Routine	61.1%	58.4%	64.1%
Urgent	34.4%	36.3%	32.6%
Emergent	4.5%	5.3%	3.3%

Callers are asked for their county of residence; these responses cannot be independently verified. It is important to note that this data is not necessarily predictive of an overall need for services in each county. Some things to keep in mind when reviewing demographic information of crisis line callers include: (1) a small number of callers contact NMCAL quite frequently, (2) some callers chose not to share their demographic information during the call, and (3) there are community members that do not yet know about the NMCAL resource.

Levels of Distress and Clinical Disposition on Crisis Line Calls

During a clinical call the NMCAL counselor assesses the current situation and evaluates how the caller can be supported through the call. Counselors rate the initial and concluding level of distress and determines if the matter can be resolved on that call, or if a higher level of response is necessary.

Level of distress is based on both the caller's presentation or overt behavior, and an assessment of the caller's situation. Even if a caller is not emotional or upset, the callers level of distress is rated higher if their specific situation appears acute.

Clinical Disposition All Crisis Line Calls	July '19	June '19	July '18
Caller stabilized by counselor, and referred to community resources if appropriate	94.1%	93.6%	96.1%
Counselor made an abuse report	1.2%	0.8%	1.0%
Caller will take the person of concern to hospital	0.3%	0.2%	0.1%
Caller agreed to go to the hospital	0.6%	0.4%	0.3%
Caller agreed to call 911 regarding immediate danger	0.1%	0.2%	0.2%
Caller conferenced to 911 due to immediate danger	2.1%	2.2%	0.9%
Counselor contacted police with caller's consent	0.4%	0.8%	0.3%
Counselor contacted police without caller's consent	1.2%	1.8%	1.1%

Calls Involving Thoughts of Suicide

While suicide is not always the presenting issue on a crisis line call, concerns related to suicide were reported on 31% of the calls in July. The 622-callers reporting concerns about suicide on the crisis line - either for themselves, or for the person of concern they called about - were supported and when appropriate, a safety plan is created with the caller. At times NMCAL involves hospital or emergency services, but only when there is not a less intrusive way to keep the caller safe.

Clinical Disposition Crisis Line Calls Involving Suicide	July '19	June '19	July '18
Caller stabilized by counselor, and referred to community resources if appropriate	86.0%	84.9%	90.7%
Caller will take the person of concern to the hospital	0.8%	0.5%	0.2%
Caller agreed to go to the hospital	1.3%	1.1%	1.1%
Caller agreed to call 911 regarding immediate danger to a third party	0.5%	0.0%	0.5%
Caller conferenced to 911 due to immediate danger	6.1%	6.3%	3.0%
Counselor contacted police with caller's consent	1.3%	2.3%	1.1%
Counselor contacted police without caller's consent	4.0%	4.9%	3.4%

Calls Involving Substance Use

NMCAL is here to support people that may be experiencing a substance use concern, either for themselves, or for the person of concern they are calling about. In July 25% of clinical crisis line callers (501 people) reported current concerns were related to the impact drugs and/or alcohol had in their lives, with another 4.7% (95 people) reporting they had a history of substance use.

In July, callers identified that Opioids were a component of the primary reason for calling on 2% of the clinical calls on the clinical crisis line, and on 0.3% of the calls on the Peer-to-Peer Warmline.

Calls Related to Opioid Use	July '19	June '19	July '18
NMCAL Clinical calls related to Opioid Use	41	49	24
Warmline calls related to Opioid Use	5	2	11

Veterans

Crisis feels different for everybody. For veterans, crises can be heightened by experiences they may have had associated with their military service. Veterans often have concerns related to mental health and substance use which arose from a wide range of situations that were experienced before, during, and/or after their military service.

Veterans, active service members, and their loved ones can find relief by talking to someone.

**Primary Presenting Problem of Warmline Calls was updated in January 2019, in an effort to capture greater understanding of the mental health concern Warmline callers were seeking support for.*

Warmline callers are asked for their county of residence, as a way for peer supports to assist the callers in engaging with additional resources and support services beyond the call.

It is important to note that the responses are not independently verified, that this data is not necessarily predictive of an overall need for services in a county, and that there are community members that do not yet know about the Warmline resource.

Some things to keep in mind when reviewing demographic information include: (1) multiple callers chose not to share their demographic information during the call, (2) a large number of Warmline callers contact the program frequently, and (3) being an integrated program, callers have choice: some callers contact both the crisis line and the warmline, while other callers contact either the crisis line or the warmline.
