**8. Highlights of Outreach and Marketing:** We partner with local health organizations, educational bodies, and community influencers to co-promote our array of services. They shared NMConnect, NM 5Actions, for their community’s adding credibility and increasing reach. During community workshops, meetings and presentations at conferences, we used interactive slides, demos, and infographics. Attendees are encouraged to download the app in real-time using QR codes on presentation slides. We find that this hands-on engagement significantly boosts app downloads during these events.
